PROFESSIONAL PROFILE

Software Engineering student and Full Stack Developer with hands-on experience in the design, development, and implementation of web and mobile applications. I have worked on real-world projects related to business management, electronic invoicing, inventory control, personal finance mobile applications, and automation using Google Apps Script.

I work with technologies such as JavaScript, Python, Java, Angular, Node.js, Flutter, MySQL, Oracle 10g, and Google Apps Script, with a strong focus on best practices, clean architecture, data security, and scalable solutions. I stand out for my analytical skills, self-learning ability, and fast adaptation to new technological environments.

WORK EXPERIENCE

Software Developer – Intern

Industrias Bisonte S.A. | April 2025 – December 2025

- Development of business applications with integrated frontend and backend.
 - Design and consumption of REST APIs.
 - Modeling and management of relational databases (MySQL).
 - Creation of UML diagrams and technical documentation.
 - Gathering and analysis of functional and technical requirements.
 - Automation of internal processes using web-based tools.
-

Web Developer

Reypar S.A.S | January 2024 – July 2024

- Development of corporate websites.
 - Design and creation of MySQL databases.
 - Requirements analysis and gathering with clients.
 - Implementation of solutions aimed at improving internal processes.
-

FEATURED PROJECTS

Personal Finance Mobile Application

- Developed using Flutter and Dart.
 - Management of income, expenses, and personal savings.
 - Focus on usability, automation, and user experience.
 - Project with monetization and scalability potential.
-

Electronic Invoicing System

- Developed in Java (NetBeans).
 - Integration with MySQL databases.
 - PDF report generation using iReport and dynamic QR codes.
 - Automation of invoicing processes and compliance with business workflows.
-

Web Game “El Impostor” (Party Game)

- Development of a mobile-first web game inspired by the classic “Impostor” game.
- Implemented with Next.js (React + TypeScript).
- Styled using Tailwind CSS and ShadCN UI for a modern and responsive interface.
- Game logic fully handled in the browser using React Hooks (useState, useEffect).

- Implementation of “Pass and Play” mode, with random phrase rotation and role assignment without collisions.
 - Mobile optimization through custom hooks and media queries.
 - Deployed on Vercel with automatic CI/CD, performance optimization, and PWA support.
 - Experience focused on interactivity, scalability, and user experience.
-

RESTful API – Pet Store

- Development of a complete REST API using Node.js, Express, and MySQL.
 - MVC architecture with clear separation of responsibilities.
 - Full CRUD operations for products, categories, and orders.
 - Implementation of API Key authentication and Rate Limiting (5 requests every 2 minutes per IP).
 - Centralized error handling and data validation.
 - Use of SQL transactions for stock validation and secure order management.
 - Table relationships using foreign keys and JOIN queries.
 - Implementation of soft delete, basic protection against DoS attacks, and connection pooling.
 - Complete endpoint documentation and testing with Postman.
-

EDUCATION

Fundación Universitaria de la Cámara de Comercio de Bogotá (Uniempresarial)

Bachelor’s Degree in Software Engineering | 2022 – 2025

CERTIFICATIONS

- Angular Certification
- JavaScript Certification
- AWS Cloud Computing 101

- Multicloud Network
 - English B2+
-

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, Java, Dart
 - **Frontend:** Angular, HTML, CSS, Bootstrap
 - **Backend:** Node.js, Express
 - **Mobile:** Flutter
 - **Databases:** MySQL, Oracle 10g
 - **Tools:** Git, GitHub, NetBeans, XAMPP
 - **Others:** REST APIs, UML, Google Apps Script, PDF Reports
-

LANGUAGES

- Spanish: Native
 - English: B2+
-

ADDITIONAL INFORMATION

- Portfolio with functional projects and technical documentation.
 - Experience in real academic and business projects.
 - Strong willingness for continuous learning and teamwork.
-

Si quieres, en el siguiente paso puedo:

- Ajustarla a **ATS internacional (USA / Europa)**
- Adaptarla a una **vacante específica**
- O entregártela lista para **LinkedIn / PDF / Word**
